the excitement of the creation lasts several hours. the pictures are examined; the quotations are studied. soon these images and thoughts are competing with various phrases scribbled next to them on the empty white spaces.

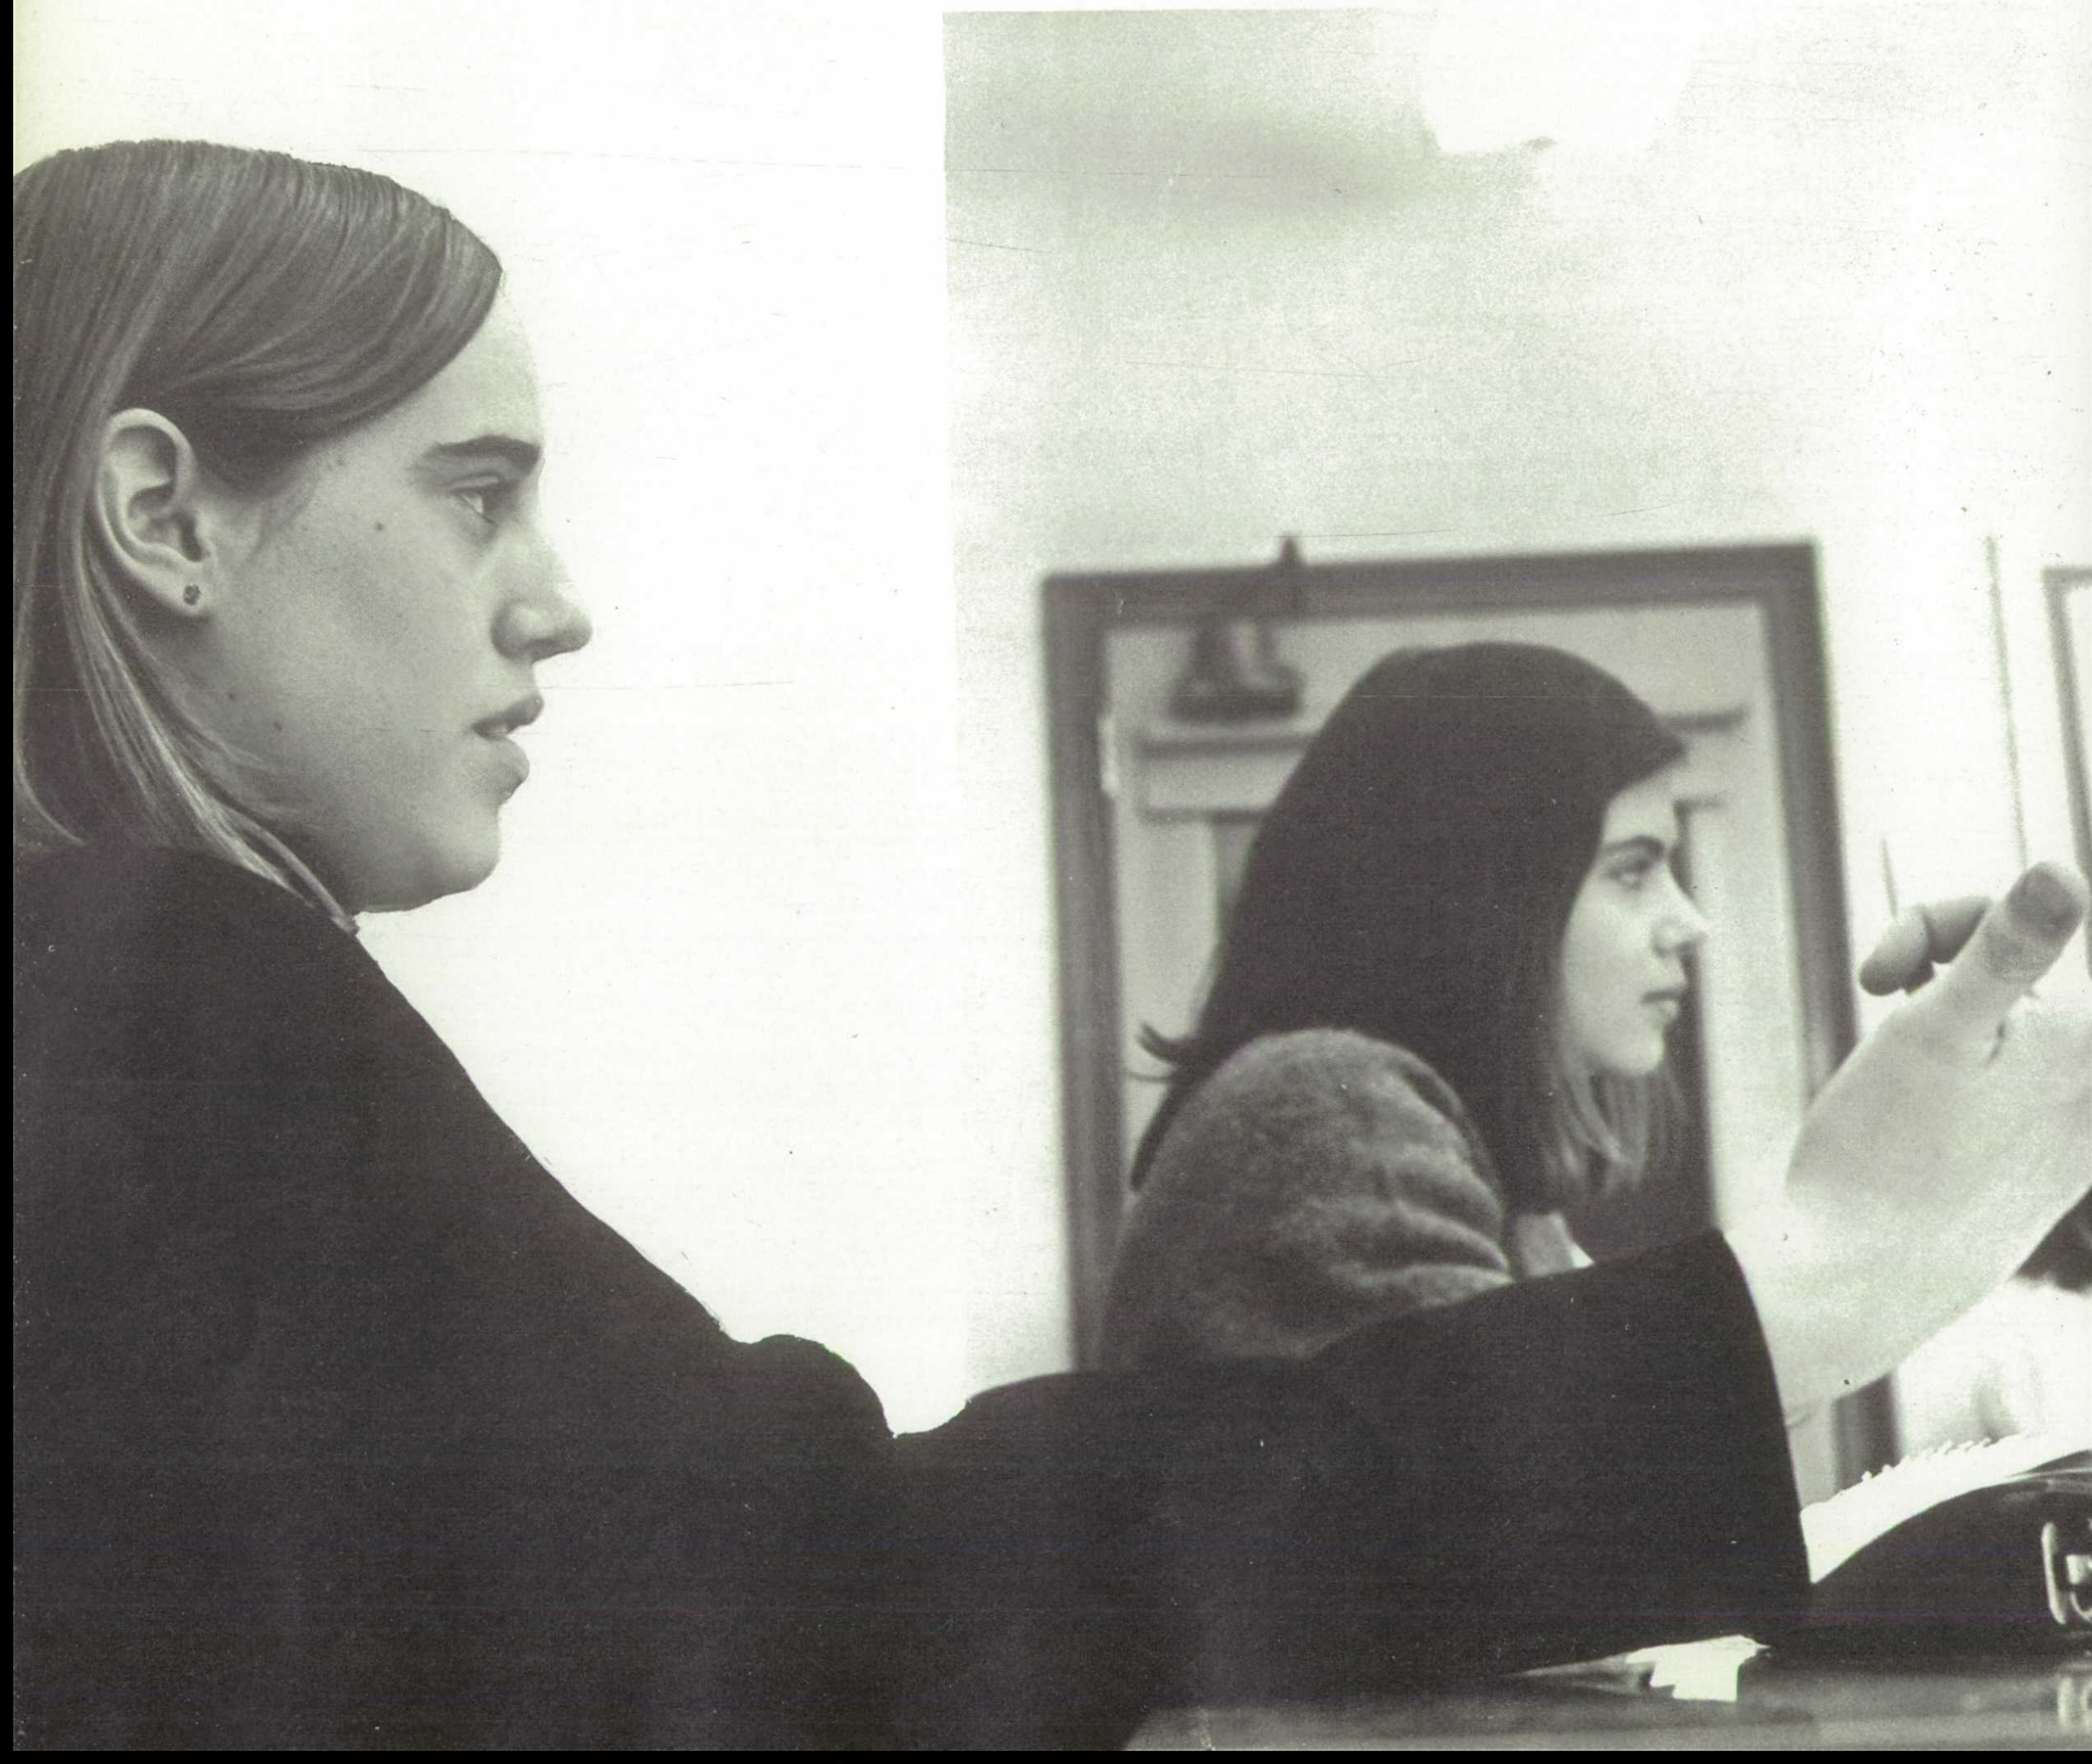

the yearbook: an attempt to understand a year; an endeavor to sort out experiences, concepts and ideals, and reunite them in the form of a book.

through these pictures, quotations and insertions, we are expressing our reflections of the school. opinions, reactions and feelings are trying to be communicated.

we are screaming them.
are we heard?

Safety is no accident

It's a big job. And the automotive industry relies on the *new* McCord for important assistance in its continuing efforts to make driving safer.

For example, McCord's Davidson Rubber Division is the world's leading independent producer of padded safety parts—including a fully molded dashboard. This year, the McCord division is supplying molded urethane bumpers, as well as bumper appliques, for several popular 1970 automobiles.

At McCord, automotive safety gets the green light. McCord Corporation, Detroit, Michigan 48202.
